LES TEXTES

I

*Discolorato hái, Morte, il piú bel volto
che mai si vide. E i piú begli occhi spenti;
spirto piú acceso dí vertutí ardenti
del piú leggiadro e piú bel nodo hái sciolto;*

II

*In un momento ogni mio ben m'hai tolto
post'hai silenzio a' piú soavi accentí
che mai s'udíro, e me pien dí lamenti:
quant'io veggio m'è noia, e quant'io ascolto.*

III

Ton visage, si changeant, tel un reflet, je le discerne maintenant.

Il se tient là, face à moi, au fond de ce sombre feuillage.

Je le reconnaît.

Me cherche-t-il des yeux ?

C'est à peine si j'ose en fixer la beauté, ayant si peur d'un leurre.

Es-tu Laure,

Laure à qui j'ai donné le nom de cet arbre au sombre feuillage,
laurier de mon jardin secret ?

Viens à moi, cher visage, approche-toi, et que de ta bouche surgisse une
parole !

Texte de Joël-Claude Meffre

IV

*Ben torna a consolar tanto dolore
madonna, ove pietà la riconduce;
né trovo in questa vita altro soccorso.*

V

*E se come ella parla, e come luce,
ridir potessi, accenderai d'amore,
non dirò d'uom, un cor dí tigre o d'orso.*
